

BALLAST COMPATIBILITY LIST SUBSTITUBE® T8 UNIVERSAL, T8 HF AND T5 HF GEN X

OSRAM SUBSTITUBE® LED TUBE Important notice:

This document is for information purposes and must be treated as recommendation.

The compatibility list is based upon testing conducted by LEDVANCE in a lab simulated environment, and the results can vary in certain field applications due to a number of factors.

LEDVANCE does not take over any responsibility, warranty or liability that this results can also achieved by using the devices under other conditions, or when using successor models of the tested devices, or different models of the same manufacturer. In case of non-observance of the instructions, safety risks of the LED TUBE SubstiTUBE® or HF (ECG) ballast can occur, e.g. flickering, no light, overheating, premature aging, failure of devices, etc..

Luminous flux may change in dependency of used ballast. This lamp is designed for general lighting (excluding for example explosive atmospheres).

The temperature range of this lamp is restricted. In cases of doubt regarding the suitability of the application LEDVANCE GmbH should be consulted.

Please note that SubstiTUBE® T8 UNIVERSAL, HF, and T5 HF LED tubes are only tested with HF ballast on AC operation. The performance of ballasts with DC operation is not tested and is therefore not guaranteed.

Since only the lamp is replaced, there is no constructive modification to the luminaire.

BALLAST COMPATIBILITY LIST SUBSTITUBE® T8 UNIVERSAL, T8 HF AND T5 HF GEN X

OSRAM SUBSTITUBE® LED RÖHRE Wichtiger Hinweis:

Diese Dokument dient zu Informationszwecken und muss als Empfehlung behandelt werden.

Die Kompatibilitätsliste basiert auf Tests, die von LEDVANCE in einer laborsimulierten Umgebung durchgeführt wurden. Die Ergebnisse können in bestimmten Feldanwendungen aufgrund unterschiedlichen Faktoren variieren.

LEDVANCE übernimmt keine Verantwortung, Garantie oder Haftung, das diese Ergebnisse unter Verwendung der Geräte unter anderen Bedingungen oder bei Verwendung von Nachfolgemodellen der getestete Geräte oder verschiedene Modelle desselben Herstellers erreicht werden können.

Bei Nichtbeachtung der Anweisungen können Sicherheitsrisiken bei der LED Röhre SubstiTUBE® oder dem HF (EVG) Ballast auftreten, z.B. Flackern, kein Licht, Überhitzung, vorzeitige Alterung, Ausfall von Geräten, etc..

Der Lichtstrom kann sich in Abhängigkeit vom verwendeten Vorschaltgerät ändern.

Die LED Röhre ist für die Allgemeinbeleuchtung ausgelegt (ausgenommen z.B. explosive Atmosphären).

Der Temperaturbereich dieser Lampe ist eingeschränkt. Bei Zweifeln an der Eignung des Anwendung bitte LEDVANCE GmbH konsultieren.

Bitte beachten Sie, dass SubstiTUBE® T8 UNIVERSAL-, HF- und T5 HF-LED-Röhren nur mit HF-Vorschaltgerät im Wechselstrombetrieb getestet werden. Die Arbeitsweise von Vorschaltgeräten im Gleichstrombetrieb wird nicht geprüft und ist daher nicht garantiert.

Auf Grund, das nur die Lampe ausgetauscht wird, erfolgt keine konstruktive Änderung an der Leuchte.

How to check and read compatibility list correctly

Step 1

Check exact type of ECG in the luminaire before installation

Check ECG name and brand
e.g.: OSRAM QT-FIT8 1X36;
SIGNIFY HF-P 254/255

Check exact reference No. of ECG

Different reference No. of ECG can lead to different compatibility result

Step 2

Check if ECG is released in the compatibility list

Need help?

If you're can't find ECGs in the compatibility list or other application support, please contact LEDVANCE GmbH prior to installation

Step 3

The operating temperature range of SubstiTUBE® LED tube is restricted. In case of doubt regarding suitability of the application, please measure "tc max" - temperature on the marked tc point on the product.

For more detailed information please see www.ledvdance.com/substitube and our LED tube installation guide

QR code to LEDVANCE download area

So überprüfen und lesen Sie die EVG Kompatibilität

Step 1

Genauere Art des EVGs in der Leuchte vor der Installation überprüfen

EVG-Name und Marke prüfen
z.B.: OSRAM QT-FIT8 1X36;
SIGNIFY HF-P 254/255

Überprüfen Sie die genaue Referenz-Nr. des EVGs

Unterschiedliche EVG Referenz Nr. können zu unterschiedlichen Kompatibilitäten führen.

Step 2

Überprüfen Sie, ob das EVG in der Kompatibilitätsliste freigegeben ist

Benötigen Sie Hilfe?

Wenn Sie ihr EVG in der Kompatibilitätsliste nicht finden können, wenden Sie sich bitte vor der Installation an die LEDVANCE GmbH.

Step 3

Der Betriebstemperaturbereich von SubstiTUBE® LED-Röhre ist eingeschränkt. Im Zweifelsfall der Eignung in der Anwendung, messen Sie bitte die „tc max“ - Temperatur an dem markierten tc-Punkt auf dem Produkt.

Ausführlichere Informationen finden Sie unter www.ledvance.com/substitube und in der LED Röhren Installationsanleitung
