

30 November 2015

RoHS Declaration

Dear Customer,

Cables and accessories sold by BKS Kabel-Service AG do not fall under the EU directives 2002/96/EC (WEEE) and 2002/95/EC (RoHS) as they are no electrical and electronic equipment covered by these directives.

This also applies to directive 2011/65/EU.

Nevertheless, it is our policy to always consider protection of the environment and its natural resources. Therefore, together with our suppliers, we have been reducing or avoiding all hazardous substances since many years.

Therefore all our since 2006 produced cables and accessories fulfill the RoHS directive's limits of substances.

We would like to point out that none of the substances mentioned are intentionally added during manufacturing process, only certain materials contain traces of these substances as a result of natural contamination. In our factory we do not carry out any analysis of the mentioned substances and preparations. For this we are relying on the assistance of our suppliers.

Best regards

BKS Kabel-Service AG
