**Re: RoHS 3 Declaration of Intent to Comply**

**RoHS 2**

Fluke products, where required, and as applicable, are generally RoHS 2 compliant as defined under Directive 2011/65/EU of the European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

**RoHS 3**

Fluke products are Category 9 Monitoring and Control instruments and are not subject to the substance restrictions of Directive 2011/65/EU (RoHS 2 Directive) of the European Parliament, as amended by Directive (EU) 2015/863 (on the restriction of the use of 4 hazardous phthalates in concentrations > 0.1% in electrical and electronic equipment) until July 21, 2021. Regardless, Fluke intends to comply with this regulation before the effective date of July 21, 2021.

For product specific inquiries, please contact Fluke at [Environmental-Compliance@Fluke.com](mailto:Environmental-Compliance@Fluke.com).

Best Regards,
