

Announcement

# Charge Lite attains EU Certification

We are pleased to inform you that Charge Lite has successfully obtained the **EU Type Examination Certificate**, demonstrating our commitment to providing technology that is not only innovative but also adheres to safety and regulatory standards across Europe.

---

## Understanding the EU Type Examination Certificate

The certificate is an affirmation from a recognized inspection body, TÜV, ensuring that Charge Lite fulfills crucial European safety and quality standards.

To elaborate:

- **Module A:** Internal self-assessment and assurance of safety and regulatory compliance.
- **Module B:** Validation from an independent third party, like TÜV, that all aspects of the product meet established standards.

While Module A is commonly pursued for compliance, we have procured Module B to underline our dedication to quality and trust.

## Areas covered by the certificate

Charge Lite has been evaluated for:

- **Health and Electrical Safety**, adhering to the 61851-1 charging standard.
- **EMC** compatibility to mitigate electronic interference.
- Adherence to **Radio Spectrum** regulations to maintain clear signal transmission.

## Significance of the certification

- 1. Reinforced trust:** The certification from TÜV provides an external verification of our product's reliability.
- 2. Ensured compliance:** By adhering to the RED Directive, we guarantee that our charger is efficient, safe, and non-disruptive to other devices.
- 3. Transparent operations:** Our documentation has been reviewed and approved by experts, ensuring full operational transparency.

## Proceeding with our tested charger

We share this news with a spirit of transparency and assurance that the EU Type Examination Certificate provides. This certification is not merely an accolade; it is an assurance to our stakeholders that our technology is safe, reliable, and aligns with all pertinent European standards.

Thank you for your continued support as we navigate forward, ensuring every charge is reliable, safe, and EU-compliant.

**under No. 0197**

herewith issues an

**EU-Type Examination Certificate**

within the meaning of Annex III Module B of the 2014/53/EU Radio Equipment Directive (RED)  
for compliance with the essential requirements of this directive

Registration Number: RT 60172704 0001

Evaluation Report Nr.: CN23HAAS 001

Manufacturer:

Easee ASA  
Grenseveien 19  
4313 Sandnes  
Norway

Product:

Radio Equipment  
(Easee Charge Lite)

Type  
Identification:

CB-A3-2/L01-STD2-01 (easee)

Essential  
requirements:

2014/53/EU (RED)  
Article 3.1a Health  
Article 3.1a Electrical Safety  
Article 3.1b EMC  
Article 3.2 Radio spectrum

The technical design of the assessed type has been verified based on the technical documentation presented by the manufacturer according to Annex III Module B of the Directive. As far as the essential requirements indicated, the Notified Body of TÜV Rheinland LGA Products GmbH confirms, that the technical design of the apparatus meets the essential requirements of the Directive 2014/53/EU Article 3.

This certificate consists of this page and Annex I.

Validity of the certificate is specified in the Annex I.
