## Function description

Huge reach. Infrared motion detector IS 345 for indoors and out, ideal for passageways, corridors and commonly used spaces, installation height 5 m, detection zone 12 x 6 m (radial) and 23 x 6 m (tangential), heavy-duty relay for high switching capacity. Available either in round or square surface-mounted, concealed or In-ceiling installation.

## Technical specifications

|                            |  |   |                                |
|----------------------------|--|---|--------------------------------|
| Dimensions (Ø x H)         | 124 x 121 mm   | LED lamps > 2 W < 8 W                         | 300 W                          |
| Manufacturer's Warranty    | 5 years  | LED lamps > 8 W                               | 600 W                          |
| Settings via               | Remote control, Potentiometers, Smart Remote                   | Capacitive load in µF                         | 176 µF                         |
| With remote control        | No   | Sensor Technology                             | Passive infrared               |
| Version                    | COM1 - in-ceiling installation, rd.                            | Mounting height                               | 2,50 – 5,00 m                  |
| PU1, EAN                   | 4007841079697  | Mounting height max.                          | 5,00 m                         |
| Type                       | Motion detectors   | Optimum mounting height                       | 2,8 m                          |
| Application, place         | Indoors  | Detection angle                               | Aisle, 360 °                   |
| Application, room          | corridor / aisle, multi-storey / underground car park, Indoors | Angle of aperture                             | 45 °                           |
